AN INSIGHT ABOUT US

SplashAir is a multi-disciplinary expanding company delivering state-of-the-art projects and solutions across its main performance sectors. We are one of the leading suppliers of air conditioning and refrigeration equipment in Zimbabwe and we have proudly served the many areas within the country with professionalism and integrity required in an HVAC company.

With our years of experience and a zeal for research and development, we have been operating in air conditioning and refrigeration industry and gained applauds for our work from our customers countrywide. Our aim is to provide the most efficient and best quality units.

We have a team of dedicated professionals who are committed to serve our markets with the best standards with one goal in mind of exceeding our customer's expectations. We also provide professional maintenance and installation of all your air conditioning and refrigeration units apart from only processing the order of clients and ensuring that the packaging of the goods is done correctly and delivered on time.

On all the projects we undertake, we make sure that the job is done with the utmost care and expertise. We also offer a guarantee on our products and services.

For more details regarding our products and services, check our product list, and ask our consultants for technical assistance so as to get the best solutions for your application.

So whether you are looking for experts in installing new units, or you want to replace the existing ones to give a boost to the performance level of your heating, cooling and freezing system, then our experts can help you out.

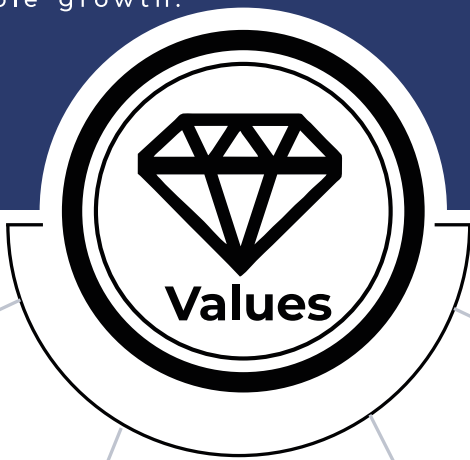

Vision

To become the nation's premier air-conditioning service provider, offering the best customer experience, superior installations, top quality maintenance, and repair services. This does not mean being the biggest but rather the best in terms of value, customer service, employee talent, and consistent, profitable growth.

Mission

Dedicated to providing the highest quality service and comfort to our valued customers. We strive to always exceed our customer's expectations.

Customer Satisfaction

We listen to the business needs of our clients and aim to surpass their expectations through the quality solutions we deliver

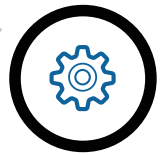

Teamwork

We direct individual accomplishments towards organizational objectives by sharing together, working together and succeeding together

Trust

Our top level goal is always to build with integrity by being honest and open with our clients, consultants and partners

Solidity

We build infrastructures and projects that stand the test of time and promote sustainable development for current and future generations

MESSAGE FROM THE DIRECTOR

We built our successful business based on one simple word "TRUST". Because of this word we established our strength throughout the local market. We work with our client's life cycle from inception to implementation with supplying capabilities to all the required equipment, devices and after sales services, delivering unique technologies and end-to-end solutions. We turn our knowledge into value for the benefit of our clients, staff members and our communities.

Get in touch with us today for all your new projects. Send us a contact request or get directly in touch with one of our experts. We look forward to offering you state-of-the-art

Alfred Motsi
Director SplashAr (Pvt) Ltd

OUR SERVICES

Refrigeration and Air Conditioning is our main line of business and specialization. We provide a full scope of HVAC solutions and services. Our comprehensive design team uses cutting edge software and tools to deliver the best solutions from design, preparation of load calculation and drawings to the execution of final deliverable. We also supply leading and famous brands of HVAC equipment and products. We professionally plan, design, install and commission all HVAC systems and provide after sale services and repairs.

Commercial / Office Air-Conditioning

Having an AC in the office provides you a comfortable working environment. It also allows you to react to “outside influence” i.e cooling the office during extremely hot weather or increasing the heat during the winter when it’s cold outside. If you want to upgrade your current system, our technicians have the knowledge and skill to help you with an ideal and affordable solutions that suits you.

Residential / Home Air-Conditioning

Since your home is the most comfortable place in the world. It is key to own an AC. It helps by circulating and filtering air, removing pollutants, and mold from the air. This is especially important to people with allergies and asthma because it minimizes the irritants that trigger an attack. So you really need this climate control.

Sales and Installations

Finding the perfect HVAC system for your home or work place can be a hustle. You do not need to worry when you have us. We supply, install and maintain all HVAC systems. We assist you from the selection to the installation of the most suitable systems for your heating and cooling needs.

Preventive Maintenance Service

Waiting for HVAC system to collapse before servicing can be a costly gamble. Our preventative maintenance plans could save you as much as 60 - 67% in repair costs while ensuring the air quality, and comfort of the building's occupants

HVAC Systems Design Assist Services

We offer full turn-key HVAC design services. Our professional engineers, decide the most suitable type of air conditioning unity for your property, the optimum position for the units and the required cooling load for the size of the space.

MEET OUR TEAM

As people are crucial in the delivery of our services and solutions to our clients. In order to ensure that everyone within our team is equipped with the right skills, knowledge and attitude, a comprehensive program is in place to constantly educate our people in new technical and management skills, enabling them to execute their duties and responsibilities confidently.
