

ALIXO

we support your hvac installations

Alixo, professional accessories for HVAC installations

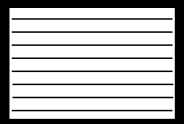

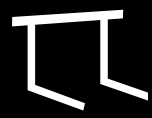

Your customer relies on you for your knowledge and personal service. A satisfied customer is often your first supporter, your billboard. In addition to your skills, a neat installation and professionally finished assembly play a very important role in the final assessment of your customer. With Alixo accessories you install with an eye on your corporate identity. With an eye for your reputation. With an eye for detail.

Alixo is a registered European brand specialising in assembly and installation accessories for refrigeration and air conditioning technology (HVAC/R). Ease of installation and use, combined with durable and high quality materials, is the starting point by which Alixo distinguishes itself on a daily basis.

Alixo, your guarantee for quality

Alixo products are manufactured in the EU under the strictest requirements. Numerous installation companies in Europe, small and large, are satisfied with the use and benefits of our durable Alixo HVAC accessories.

step-overs - roof inlets - frames - socles - wall brackets - protective cages - drainpipes - cleaning products
